

Services for your business

Websites, connected data and practical automation for small and midsize teams.

Saero helps you improve the way your business presents itself, handles everyday work and uses data. Start with a focused project or reserve ongoing help as your needs grow.

01

Build and connect

Websites, workflows, data pipelines and reporting models.

02

Understand your data

Cleanup, analysis and dashboards for clearer decisions.

03

Keep improving

Monthly advisory and engineering time for changing priorities.

NOT SURE WHERE TO START?

Technology and Data Roadmap

From \$1,100

Focus on one priority. Receive a current-state review, recommended approach and prioritized 90-day plan.

Begin with a free 20-minute fit call.

Build better business systems

Focused implementations with editable delivery, clear documentation and a practical handoff.

Business Website

From \$3,100

Present your business clearly and make it easy for visitors to inquire.

Up to five pages, mobile-friendly layouts, one contact form, launch and handoff.

You supply approved content and brand assets.

Workflow and Task Automation

From \$2,500

Reduce repetitive work across the tools your team already uses.

One trigger, up to two systems and five agreed steps, plus an editable workflow and operating guide.

A focused workflow with clear business rules.

Data Pipelines and Integrations

From \$5,000

Move data between systems without repeating the same export-and-load task.

One source, one destination, up to three source objects and a scheduled daily batch.

Client checks completion and data freshness.

Analytics Engineering and Data Models

From \$4,000

Create consistent reporting data and shared definitions for your metrics.

One subject area, up to five SQL models or views and definitions for up to eight metrics.

Usable source data and an existing environment required.

CLEANUP THROUGH REPORTING

Make your data useful

Choose a one-time answer, a cleaner dataset or a repeatable view of business performance.

Data Cleanup

From \$600

Turn a messy spreadsheet or export into a consistent, usable dataset.

Remove duplicates, standardize categories and normalize formats using up to five agreed rules.

Cleaned copy, change summary and exceptions for review.

Data Analysis and Findings

From \$1,050

Understand what your data shows and what to investigate next.

Up to three related questions, five static visualizations and a concise findings summary.

One prepared dataset; substantial cleanup is separate.

Starter data scope: one flat table, up to 25,000 rows and 20 columns.

Clean Data and Insights

From \$1,450

Cleanup + analysis on the same dataset, with a shared readout.
Save \$200 compared with the separate starting fees.

Dashboards and Decision Support

Build from \$3,500 | Improve from \$1,500

Turn prepared data into reporting your team can use repeatedly. A starter build covers up to two dashboard pages and eight KPIs; improvement covers up to five agreed changes. Tableau is available in your existing licensed environment.

A CONTINUING PARTNERSHIP

Ongoing help as priorities change

Reserve advisory or engineering time across the systems we agree to support.

Technology Advisory

\$750

Up to 5 hours / month

Technical choices, priorities and analysis. Includes one 30-minute review.

Advice and analysis; implementation excluded.

Engineering Partner

\$1,500

Up to 10 hours / month

Small builds, improvements and troubleshooting across agreed systems.

Includes two 30-minute working sessions.

Dedicated Engineering Support

\$2,750

Up to 20 hours / month

More capacity for an ongoing list of engineering and analytical work.

Up to four 30-minute sessions and a monthly summary.

Plan essentials

Month-to-month with 30 days' notice. Meetings and preparation count toward hours. Onboarding starts at \$500; waived for qualifying recent Saero handoffs. Plans depend on available capacity and provide scheduled help, not emergency or 24/7 coverage.

A clear path from idea to handoff

01 Discuss

Identify the problem.

02 Scope

Agree fee and deliverables.

03 Deliver

Build, review and hand off.

Let's discuss your first project.
